## Instructions for Treating Black Algae

1. Brush algae spots 2-3 times daily.
2. Lower Ph by adding Muriatic Acid to a 5 gallon bucket filled  $\frac{3}{4}$  with water and walk around the perimeter of the pool pouring in the liquid slowly.
3. Add  $\frac{1}{2}$  Qt. Black Algaetrine to a 5 gallon bucket filled  $\frac{3}{4}$  with water and walk around the perimeter of the pool pouring in the liquid slowly. Repeat for 2<sup>nd</sup>  $\frac{1}{2}$  or Qt.
