HAPPINESS IS A WARM POOL

February 22, 2010

Dear Friends,

I want to thank my new and regular customers for making the 2009 season very successful. In a time where we all are watching our spending and concerned with the economy, we at Pool Spa Doctor will continue to provide superior service above your expectations for a fair value. Most of us own a pool or spa. We can all relate to the satisfaction of that warm body of water and we have a universal connection. I often say, "A Cold Pool is an Empty Pool" thus, the warmer pool or spa does bring happiness.

DISCLAIMER: All my newsletters state, my opinion may not be politically or religiously approved or correct and could be misconstrued as judgmental or insulting, which is not my intent.

An area that most of us have another universal connection with is with God. It never ceases to amaze me how God continuously shows His hand in our lives. With all the hype about the world ending in 2012, I was going to name this newsletter "2012 The End of the World?" and later thought I would title a subsequent newsletter before 2013. However, I opted for my title that came from a Beatles song titled "Happiness is a warm gun" and slightly modified it. I got the idea when I read, "Happiness is a warm cookie" on a truck. When I am in *my* warm pool or hot tub..... I am happy.

God's hand was in my life recently this past winter. I was attending a class in Stamford with eight other students. Two students stood out. One, was a retired Catholic priest from Gilford with a PhD in Biblical studies of the New Testament and the other was an elderly intellectual man from Westchester who was an Atheist. We all became fast friends. The population of the earth is almost at 7 billion. From the 7 billion is the number of those who are strong believers that there is NO God. That number is between 250 to 500 million depending on where the statistics come from. An Atheist believes after we die, poof, there is nothing more. Some Atheists may think we believers have to make God up due to not being able to accept that once we die, that's it. We talked prophecy, which is my passion, Islam, Allah, Jihad, and other events involving Israel along with current, local and world situations. I listened to many aspects of religious and political points of view. At breaks and at lunchtime we had meaningful discussions that were thought provoking.

I asked my new priest friend if he saw the actions in Israel or the Middle East fulfilling Bible prophesy. Unfortunately He didn't see it and that's ok. He may now look at what he hears from the secular news in a different way. We did agree about the important issues. He was curious about some new information that I had informed him about.

WORLD UPDATE & ISSUES

IRAN

President Mahmoud Ahmadinejad used the 31st anniversary of the Iranian revolution on February 11th to confirm that his government had "successfully" enriched uranium from three to 20 per cent. Feb 19 UN weapons inspectors have officially accused Iran of carrying out work to build a nuclear bomb for the first time. A damning report to be issued by the International Atomic Energy Agency next week will say Tehran has processed a substantial quantity of uranium to a point where it could be used to trigger a nuclear explosion. The document provides direct evidence of Iran's efforts to assemble a nuclear weapon, which could provide a compelling justification for new UN sanctions against the country's regime. He also states that Israel will be destroyed if it attacks Hezbollah in Lebanon.

TURKEY - Turkey's leader rejected a U.S. appeal to deploy a NATO missile shield that would block an Iranian attack on Europe.

SYRIA – Terrorist group Hamas is waiting for the word from Iran to attack Israel at the right moment.

LEBONAN- Terrorist group Hezbollah is waiting for the word from Iran to attack Israel at the right moment.

ISRAEL - Israel has urged the United Nations Security Council to impose "crippling" sanctions on Iran, which announced in February that it had begun production of 20-percent-enriched uranium? Potentially a significant step towards an atomic bomb. Israel's intelligence community has warned of the likelihood of a Hezbollah attack abroad.

SAUDI ARABIA to the Obama Administration: We're scared of Iran, you're going too slow and we want an 'immediate resolution' on Iran

GLOBAL WARMING/CLIMATE CHANGE – How could an entity that can't predict 5 days of weather in advance, forecast 50 years from now! John Coleman, founder of the Weather channel, did a documentary titled "Global Warming: The Other Side" presenting evidence that our National Climatic Data Center and the now disgraced University of East Anglia Climate Research Unit, manipulated weather data. They are currently under investigation. Coleman's blockbuster series is VERY informative and can be seen at www.kusi.com/weather/colemanscorner/81583352.html So what of Al Gore, who made millions on the global warming fraud? Or of the man who occupies the Oval Office who said in his State of the Union message "I know there are those who disagree with the overwhelming scientific evidence on climate change. But here's the thing--even if you doubt the evidence, providing incentives for energy efficiency and clean energy are the right thing to do for our future"? The politicians wanted a global society and that was at the political bottom of global warming.

The Bible has some interesting words describing all this. 2 Timothy 3:13 says, "But evil men and seducers shall wax worse and worse, deceiving and being deceived." Jesus presented a list of signs that would precede His return, saying that they would, like birth pains, increase in both frequency and intensity as the time approached. He warned of wars, rumors of wars, earthquakes, famines, pestilences and apostasy. He warned of the approaching Tribulation Period, which He called the "days of vengeance" linking it with the restoration of Israel and the conflict over Jerusalem (2 state solution).

It is *after* Jesus makes reference to Jerusalem and the fulfillment of the 'times of the Gentiles' that He addresses the climate change hysteria in clear and unmistakable terms: "And there shall be signs in the sun, and in the moon, and in the stars; and upon the earth distress of nations, with perplexity; the sea and the waves roaring; Men's hearts failing them for fear, and for looking after those things which are coming on the earth: for the powers of heaven shall be shaken." (Luke 21:24-25). Is there a better description of the climate change debate than distress and perplexity (fear and confusion)?

Interesting Bible trivia: Up until the time of Noah's flood, it had never rained on the earth. The bible says there was a mist that came up out of the earth to supply water needed for survival.

My prayer today my friends, is for you to recognize God's hand and blessings in our lives and know that no wild set of circumstances could replace God. Keep your eyes and ears open. Admit it or not we are living in what the Bible describes as "perilous times".

May God bless our families, this country, and us.

Larry

PS: Maybe this will be the year you decide to jump into warmer water. I prefer 84-86 degrees myself. Heaters are on sale! Ahhhh..... Remember: POOL SPA DOCTOR uses credit cards for payment and e-mail's paid invoices. We encourage you to provide us with your email address.
