Where the heck is this world going! AND WHO'S HOLDING THE STEERING WHEEL!

September 1, 2009

Dear Friends,

A sincere "Thank You" for helping make the 2009 season a success! Despite the economy and a rainy summer, Pool Spa Doctor had the busiest season on record. Forty years ago, I was hired as a pool boy and blessed with an opportunity. Today, after plenty of hard work and assistance from others, our business remains by providing superior service with a knowledgeable staff.

We hope you have enjoyed the comfort and fun that pools and spas were intended to give. However, now is the time to schedule your **WINTERIZING**. Our family owned and operated company continued to make you our priority this year by not increasing your summerizing or winterizing prices. Enclosed are your **WINTER CONTRACTS**. Simply fill in the name box at the bottom, check off the date and desired services and return the contract with payment information. DO NOT WAIT. Schedule your winterizing now. Take advantage of our discounted filter reconditioning service so you can start next summer off with a clean filter to keep your water crystal clear. Remember, if you are in need of any equipment, save 10% when ordering between Nov 1, and March 15. If it's easier for you, you can send an email and state you authorize the winter contract for 2009 and list any additional services needed. Thank you for doing your part in helping our world become greener. If you are not getting E-mail from us yet, please fill in the email address in the name section box, and do your part to help our earth stay healthy.

To preserve your investment and reduce winter freeze damage, you must maintain your pool in the "off season". This spring, we repaired many pools and spas that had **WINTER DAMAGE** that could have been prevented. You don't need the extra expense and we don't need the extra work. **Important!** If you are adding water to your pool or spa weekly, you have a leak. Waiting will result in additional cost and damage.

Thank you to those who have utilized our new POOL SPA DOCTOR website. You have downloaded instructions, picked out spa cover colors and liner styles, as well as reading about maintenance procedures to help you care for your pool or spa. Our website has many photos of some of our work and is continuously updated. As you will see, our abilities also includes: **CONSTRUCTION PROJECTS, PORCHES, SUN ROOMS ADDITIONS, KITCHEN AND HOUSE RENOVATION, GARAGES, NEW CUSTOM HOMES, STONEMASONRY, CUSTOM OUTDOOR STONE & GRANITE GRILLS, FIRE PITS, and DRAINAGE SOLUTIONS.** See our personal information about our business and family history and my life's passion-the study of eschatology and prophecy.

THE FOLLOWING MAY NOT BE POLITICALLY OR RELIGIOUSLY CORRECT TO SOME AND MAY OFFEND YOU!

Today's World & Prophecy

A few weeks ago, I was coming back from blueberry picking with a good friend of mine and he commented that he didn't know where he would go. I didn't understand and asked him to elaborate. He said He was worried that the United States may be coming under communist rule. He came from a communist country many years ago and said he sees our government's actions and decisions that could be recognized as the beginning signs of communism. I thought...Nonsense! Since I'm ignorant about communism, I asked him to explain more and I asked if there was anything good about it. He said, " In a communist regime, many look to get into positions of high power. Once there, they are able to control and steal from the people. I had to carry my trunk full of items the authorities could use to barter with them for doctor care or whatever else was needed. Corruption was out of control. If there were any good to communism it would be working in many countries. Russia tried for years and it didn't work. The ideals are great. Utopia can't happen if a corrupt government owns everything. Do you think the democrats want to destroy this country? No. They really believe this is the best direction for the U.S. and Obama has the best intentions." Humm... Since the Obama administration inherited 500 billion of debt when Bush left office, I ask how can debt grow to 2 trillion in 9 months and is expected to climb to 9 trillion in 3 years. The government has given billions to bail out the banking, insurance, mortgage businesses, the auto industry and wants more money for the health care proposal. We are looking at adding 40 million people to existing doctors schedules with business owners, like

myself paying the bill. How will that affect you and me? That will force others and me in my situation to raise our prices. The real estate and housing industries are still in need of stimulus money with homebuyers and homeowners suffering. It seems like a few big companies and states received some help but nothing for us little people. Why are many "radical conservatives" demonstrating at town hall meetings lately? Humm...

The G7 finance meetings held earlier this year had some interesting conversations about the introduction of a one-world currency. Brilliant honest men like Tim Geitner with some tax issues talked about solving world money problems. They must know the system pretty good to be able to slide or hide lots of back taxes due unless it goes public. Once public they can say oops I forgot and pay the money without consequence. I'm having trouble thinking if that were me, I would be in the slammer for a long time. Is this a joke or what?

This past March, I went with a group to tour Israel, which in my opinion is a trip everyone should experience. Many of you have commented weren't you scared? But the truth was I never felt more secure. Armed military presence was everywhere with many private citizens carrying guns. If a problem occurred, I am sure it would end quickly. If that were the case in America, some of the recent massacres in schools, buildings or parking lots, would have had less casualties. A week tour of Israel would convince anyone of the pinpoint accuracy of any bible verse. From the Dead Sea where you floated like a cork and bathed in hot mud baths to standing in the temple where Jesus preached to the elders was amazing. We saw Peters house and looked out from the top of Tel Megiddo where the children of Manasseh failed to drive out the Canaanites who dwelt there. It was on Tel Megiddo where Kings Ahaz and Solomon stabled their warhorses. When you look out over the wide green valley below, it is obvious why this was once the most strategic military outpost in the known world. Tel Megiddo will also bear witness to the bible's conclusion, when all the world's armies gather together one last time in that same valley the Apostle John called the Valley of Armageddon. The end from the beginning is not such an easy trick as one might think. Anywhere in Israel, you can see elements of the beginning, the middle, and the end and somehow they all blend together. Looking out over the Valley scattered with old military equipment, reminds us of those who tried to take Jerusalem in the past. This same valley is where someday the world's greatest battle will be fought over who owns Jerusalem. It is one thing to predict the New York Yankees will win the pennant in any given year. It's another to predict how each game in that season played out in order to get them there.

THE END FROM THE BEGINNING: LAST THINGS FIRST (Isaiah 46:9-10)

"Remember the former things of old: for I am God, and there is none else; there is none like Me, Declaring the end from the beginning, and from ancient times the things that are not yet done, saying, My counsel shall stand, and I will do all My pleasure:"

For you who have been receiving these prophetic letter/contracts since February of 2002 and have encouraged me to continue, a sincere thank you. You know I thank God for the many blessings in my life. Who is my God? He is God of Abraham, Isaac & Jacob who lived in the land of Canaan. That same land recently became a nation in 1948 and was named Israel. And just like that, in a land on the other side of the earth, a tiny little nation was quietly formed overnight confirming Bible prophecy once again. Ezekiel 37

"And in that day will I make Jerusalem a burdensome stone for all people: all that burden themselves with it shall be cut in pieces, though all the people of the earth be gathered together against it." (Zechariah 12:3) The Bible points to the constant state of war between Israel and 'the many' as evidence that we are approaching the end of the Church Age and the onset of the Tribulation Period. But as we get closer to the end of this present age, the Bible's focus changes from that of Israel in a constant state of war, to that of a false peace. As Daniel prophesied, it is by peace that he shall destroy many. (Daniel 8:25).

When it looked like a new Iranian leader might have held out for the possibility of peace, the Rapture seemed closer. Now, with Ahmadinejad's re-election holding onto the idea of war with Israel, it appears that maybe the Rapture may actually be further away than we thought. But even that possibility may be misleading. Jesus said it would be impossible to calculate the day and hour. But now that it's less likely for the near future, consider this: "Therefore be ye also ready: for in such an hour *as ye think not*, the Son of man cometh." (Matthew 24:44) Humm...

Please don't hesitate to call if you have any questions.

Take care, God Bless and See you in the spring.

Larry
